1. The applicant has the legal, managerial, institutional, and financial capability to build, operate, and maintain the project.
2. The applicant certifies that no undisclosed fact or event, or pending litigation, will materially or adversely affect the project, the prospects for its completion, or the applicant's ability to make timely repayments to the Drinking Water Revolving Fund.
3. The applicant agrees that the rates and charges for the services of the project will be established, levied, or collected in an amount sufficient to pay the expenses of administration, operation, and maintenance of the project and to pay the principal and interest requirements on all bonds payable from revenues of the project.
4. The applicant agrees to provide all moneys in excess of bond proceeds necessary to complete the project and to maintain adequate revenues from a user-based source to fund the operation of the project.
5. To the extent permitted by law, the applicant shall take all actions within its control and shall not fail to take any action as may be necessary to maintain the exclusion of interest on its bond from gross income for federal income tax purposes, including but not limited to, actions relating to the rebate of arbitrage earnings and the expenditure and investment of bond proceeds and moneys deemed to be bond proceeds.
6. The applicant will take no action which would cause its bonds to be classified as private activity bonds. The applicant will make no use of bond proceeds which would make its bonds federally guaranteed.
7. The applicant agrees to maintain complete books and records relating to the construction, operation, and financial affairs of the project in accordance with generally accepted accounting principles (GAAP) and generally accepted government auditing standards (GAGAS).
8. The applicant will have an audit of its entire operations prepared by a recognized independent certified public accountant for each year in which the applicant receives \$500,000 or more in federal assistance. 10. The applicant will maintain and carry insurance on all physical properties of the project, of the kinds and in the amounts normally carried by municipalities engaged in the operation of similar water supply systems. All moneys received for losses under any such insurance policies shall be applied to the replacement and restoration of the property damaged or destroyed or for repayment of the bond held by the Authority.
11. The applicant will notify the DEQ and the Authority within 30 days of the occurrence of any event which, in the judgment of the applicant, will cause a material change in the financial condition of the project, or, if the applicant has knowledge, of the waterworks system of which the project is a part.

Such events include the receipt of funding from another state or federal program for project costs financed by the Drinking Water Revolving Fund.

12. The applicant agrees to provide any necessary written authorizations to the DEQ and the Authority for the purpose of examining the physical plant or for examining, reviewing, or auditing the operational or financial records of the project. The applicant also agrees to require similar authorizations from all contractors, consultants, or agents with which the applicant negotiates an agreement.
13. The applicant agrees that all pertinent records shall be retained and available to the DEQ and the Authority for a minimum of three years after the actual initiation of operation of the project and that if litigation, a claim, an appeal, or an audit is begun before the end of the three-year period, records shall be retained and available until the three years have passed or until the action is completed and resolved, whichever is longer.
14. The applicant has, or will have prior to the start of construction, all applicable state and federal permits required for construction of the project and will comply with the conditions set forth in such permits.

Instructions General

Recipients of Federal financial assistance from the U.S. Environmental Protection Agency must comply with the following statutes.

Title VI of the Civil Rights Act of 1964 provides that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. The Act goes on to explain that the title shall not be construed to authorize action with respect to any employment practice of any employer, employment agency, or labor organization (except where the primary objective of the Federal financial assistance is to provide employment).

Section 13 of the 1972 Amendments to the Federal Water Pollution Control Act provides that no person in the United States shall on the ground of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under the Federal Water Pollution Control Act, as amended. Employment discrimination on the basis of sex is prohibited in all such programs or activities.

Section 504 of the Rehabilitation Act of 1973 provides that no otherwise qualified handicapped individual shall solely by reason of handicap be excluded from participation in, be denied the benefit of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. Employment discrimination on the basis of handicap is prohibited in all such programs or activities.

The Age Discrimination Act of 1975 provides that no person on the basis of age shall be excluded from participation under any program or activity receiving Federal financial assistance. Employment discrimination is not covered. Age discrimination in employment is prohibited by the Age Discrimination in Employment Act administered by the Equal Employment Opportunity Commission.

Title IX of the Education Amendments of 1972 provides that no person on the basis of sex shall be excluded from participation in, be denied the benefit of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance. Employment discrimination on the basis of sex is prohibited in all such education programs or activities. Note: an education program or activity is not limited to only those conducted by a formal institution.

The information on this form is required to enable the U.S. Environmental Protection Agency to determine whether applicants and prospective recipients are developing projects, programs and activities on a nondiscriminatory basis as required by the above statutes.

Submit this form with the original and required copies of applications, requests for extensions, requests for increase of funds, etc. Updates of information are all that are required after the initial application submission.

If any item is not relevant to the project for which assistance is requested, write "NA" for "Not Applicable."

In the event applicant is uncertain about how to answer certain questions, EPA program officials should be contacted for clarification.

ITEMS

- IA. "Applicant" means any entity that files an application or unsolicited proposal or otherwise requests EPA assistance.
- IB. "Recipient" means any entity, other than applicant, which will actually receive EPA assistance.
- IC. Self-explanatory.
- II. Self-explanatory.
- III. "Civil rights lawsuits" means any lawsuit or complaint alleging discrimination on the basis of race, color, national origin, sex, age or handicap pending against the applicant and/or entity which actually benefits from the grant. For example, if a city is the named applicant but the grant will actually benefit the Department of Sewage, civil rights lawsuits involving both the city and the Department of Sewage should be listed.
- IV. "Civil rights compliance review" means any review assessing the applicant's and/or recipient's compliance with laws prohibiting discrimination on the basis of race, color, national origin, sex, age or handicap. If any part of the review covered the entity which will actually benefit from the grant, it should be listed.
- V. Self-explanatory.
- VI. The word "community" refers to the area under the applicant's and/or recipient's jurisdiction. The "community" might be a university or laboratory campus, or a community within a large city. If there is a significant disparity between minority and nonminority populations to receive service, not otherwise satisfactorily explained, the Regional office may require a map which indicates the minority and nonminority population served by this project, program or activity.
- VII. This information is required so that reviewers may determine if a disparity in the proposed provision of services will exist in the event the application is approved for funding. Give population of recipient's jurisdiction, broken out by categories as specified.

In the event the applicant cannot provide the requested information because the funds will be distributed over a wide demographic area which is yet to be determined, an explanation may be provided on a separate sheet. For example, a State applying for a capitalization grant under the State Revolving Fund program may not know which cities and counties will apply for, and receive, SRF loans.
- VIII. Self-explanatory.
- IX. "Jurisdiction" means the geographical area over which applicant has the authority to provide service.
- X. Self-explanatory.
